

STORMWATER MANAGEMENT STUDIES

Virginia Beach Convention Center LEED® Existing Building Certification for Stormwater Management, City of Virginia Beach, Virginia

Kerr Environmental Services assisted the Virginia Beach Convention Center (VBCC) with LEED® (Leadership in Energy and Environmental Design) certification by the U.S. Green Building Council for stormwater issues. Kerr Environmental Services determined surfaces areas of each land cover type, completed calculations for annual stormwater mitigation, prepared a narrative describing the impact of the implemented stormwater management plan, and assisted with the development of quarterly stormwater management facility inspection forms.

The VBCC is the first convention center in the country to achieve LEED® Gold.

Kerr Environmental Services Corporation is a Certified Small Business, GSA Contract Holder # GS-10F-0291V and SWaM VA Certified # 653032 that provides services related to National Environmental Policy Act (NEPA) document preparation; watershed inventories; sustainable habitat assessments and design; Low Impact Development design; wetland and stream permitting and mitigation design; remediation investigations; protected species studies; Stormwater Pollution Prevention Plans (SWPPPs) and inspections, and all necessary coordination with regulatory agency personnel.
