NEPA DOCUMENTATION STUDIES

Salem Road Princess Anne Road Intersection, City of Virginia Beach, Virginia

Kerr Environmental Services (KES) prepared portions of the *Categorical Exclusion* documentation and secured an *Environmental Certification Form* from VDOT to construct additional lanes at the Salem Road-Princess Anne Road Intersection as required for *Virginia's First Cities Initiative* projects (locally-administered VDOT projects). As part of this project, KES coordinated with the Department

of the Navy regarding the project encroaching on federal lands. KES performed historic resources and protected species database reviews and coordinated with the Virginia Department of Historic Resources (VDHR), the Virginia Department of Conservation and Recreation (DCR), and the Virginia Department of Game and Inland Fisheries (VDGIF) to secure “capstone letters”. A wetland assessment of the property was also performed, in order to complete all components of the *Water Quality Permit and Natural Resources Due Diligence Form* (VDOT form EQ-555) as part of the Categorical Exclusion documentation for the project.

Kerr Environmental Services Corporation is a Certified Small Business, GSA Contract Holder # GS-10F-0291V and SWaM VA Certified # 653032 that provides services related to National Environmental Policy Act (NEPA) document preparation; watershed inventories; sustainable habitat assessments and design; Low Impact Development design; wetland and stream permitting and mitigation design; remediation investigations; protected species studies; Stormwater Pollution Prevention Plans (SWPPPs) and inspections, and all necessary coordination with regulatory agency personnel.
