STORMWATER MANAGEMENT STUDIES

Preliminary Stream Condition Assessment, City of Colonial Heights, Colonial Heights, Virginia

Kerr Environmental Services performed assessments of nine streams, totaling 16,900 linear feet in length throughout the City. The objective of this study was to identify the level and origins of degradation, stratify stream reaches by level of degradation, and provide restoration recommendations for each reach as part of the City's stormwater management plan.

Kerr Environmental Services Corporation is a Certified Small Business, GSA Contract Holder # GS-10F-0291V and SWaM VA Certified # 653032 that provides services related to National Environmental Policy Act (NEPA) document preparation; watershed inventories; sustainable habitat assessments and design; Low Impact Development design; wetland and stream permitting and mitigation design; remediation investigations; protected species studies; Stormwater Pollution Prevention Plans (SWPPPs) and inspections, and all necessary coordination with regulatory agency personnel.
